Know the Earth... Show the Way... Understand the World

WHAT IS GEOGRAPHY?

The background of the slide is a large aerial photograph of a city harbor, likely San Francisco, showing the city skyline, the Golden Gate Bridge, and several ships in the water. Overlaid on this image is a collage of vertical strips, each showing a different geographical feature: a blue and white abstract pattern, a dark blue and white abstract pattern, a brown and white abstract pattern, a green and white abstract pattern, a brown and white abstract pattern, and a blue and white abstract pattern. The text "The study of the physical features of the earth and its atmosphere..." is written in large, bold, yellow letters across the center of the image.

• “The study of the physical features of the earth and its atmosphere...”

WHAT IS GEOGRAPHY?

...and of human activity as it affects and is affected by these, including the distribution of populations and resources, land use, industries."

SUMMARY

-Geography drives everything!

-Maps are a way of looking at geography

-Everything we do...

-everything we like or dislike...

-everything we believe...

is a result of our own geography!

Now: on to the game!

You each have a card with a date and location on it.

These locations are where Beyoncé and Jay-Z performed on their “On the Run” tour.

Starting with the first location, you will all place your cards on the political map where Beyoncé and Jay-Z toured!

Please help the next person by giving them north, south, east, and west directions
